

Rock Solid
Industrial Solutions, LLC

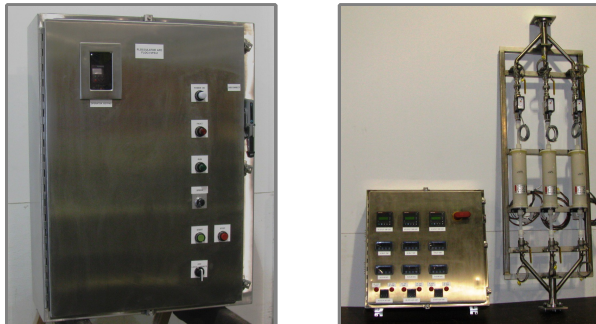

Our company is dedicated to on going improvements in the areas of metal and non metal mining. We are proud to have an excellent knowledge base in aggregate processing and the equipment used in producing a quality product. From motor control to automation; our systems have evolved to be reliable, operator friendly, and cost effective.

Using Siemens T.I.A., "Total Integrated Automation", and T.I.P., "Total Integrated Power", has allowed greater system flexibility to meet our customer's needs. The use of Switchboards, PLCs, Operator Interfaces, as well as Motor Control Centers with Intelligent Overloads, Soft Starts, Variable Frequency Drives, and Power Monitoring, gives the system full plant control.

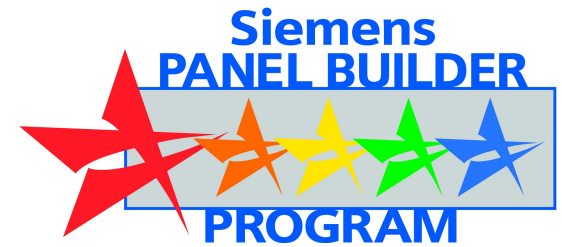

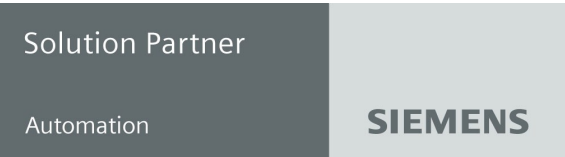

Rock Solid

Our UL508 and Siemens Panel Shop enables us to produce quality Combination Starters, Soft Starts, and Variable Frequency Drive units; with fast, customer requested modifications. Any type of panel from Motor Control to Process Control is available upon request.

We are proud to
be a:

Able to service your
needs with:

- Complete Plant Automation
 - Operator Interface
 - Overall System Control
- Modified Container Buildings
- Custom Built Equipment Houses

Mission Statement

Our mission is to provide Quality Products and Service to a varying technical market. We will provide leadership in the marketplace by committing to self improvement, maintaining high ethical standards, and integrity with all our relationships. We are committed to becoming an extension of our customer; to become a reason for their growth and success. Our rewards will be customer satisfaction and reasonable profit.
